

## **Healthcare in Africa**

*Future approaches to funding, partnerships and access*

March 6th -7th 2011, Cape Town

### **Transforming Africa's healthcare systems—where should change happen?**

Healthcare demands in Africa are changing. With chronic diseases rising, an emerging middle-class demanding better quality, affordable healthcare and private healthcare on the rise, what is the future for healthcare systems across the continent?

Healthcare in Africa will bring together influential healthcare stakeholders from government, providers, suppliers and patient groups to confront and explore key issues around healthcare systems in Africa. You'll be able to participate in interactive brainstorming sessions, hear cutting-edge case studies, and hear from a range of inspiring speakers.
